**About LungLife**

LungLife AI is a developer of clinical diagnostic solutions designed to make a significant impact in the early detection of lung cancer, the deadliest cancer globally. Using a minimally invasive blood draw, the Company's LungLB® test is designed to deliver additional information to clinicians who are evaluating indeterminate lung nodules. For more information visit [www.lunglifeai.com](http://www.lunglifeai.com)

Our Purpose is to be a driving force in the early detection to lung cancer. Our Vision is to invert the 20:80 ratio such that in years to come at least 80% of lung cancer is detected early.
